

How to Order

School Ordering Worksheet, 2020-2021

Test ordering can be confusing at times. This form is intended to simplify the process by using the most common grade/level options.

Enter the number of students per grade below and use the totals per level to determine what you need to order from Catforms and Christian Light on the right. Transfer that information to the respective order forms.

Most schools use Form A tests on even numbered years (such as 2020), and Form B tests on odd-numbered years.

For more information and options, see our order form.
